DIRECTORS' REPORT TO SHAREHOLDERS

Your Directors have pleasure in submitting their 73rd Annual Report and audited financial statements of your Company for the year ended March 31, 2019.

The Statement of accounts presented to you include the accounts of KG Fabriks Limited which has been merged with your Company with effect from 1.4.2018 as per the Scheme of Amalgamation approved by the Orders of Honorable National Company Law Tribunal, Chennai.

Merger of KG Fabriks Limited

KG Fabriks Limited [KGFL] went in to commercial production of denim fabric in SIPCOT Industrial Growth Centre, Perundurai from 29.3.2006. In the fast changing domestic and global business, economic, industrial and political environment, technological developments, regulatory changes in the financial sector, size of business and business integration matters very much to face competitive challenges. Management earnestly felt that keeping spinning and weaving facilities on stand alone basis will not be hitherto advantageous and that integration of two businesses in to one has to be done in the larger interest of all stakeholders for the years to come. This would enable greater realization of potential of the businesses of both the companies and result in enhanced value creation for all the stakeholders.

Under such circumstances the Board of Directors of KGFL (Transferor Company) and Sri Kannapiran Mills Limited [SKML] (Transferee Company) at their meeting on 20.10.2018 resolved that the spinning and weaving businesses be integrated through a Scheme of Amalgamation (under Sections 230 to 240 and other applicable notified provisions of the Companies Act, 2013) of KGFL with SKML and their respective Shareholders and Creditors subject to required regulatory approvals.

Company thereafter filed the necessary application with Honorable National Company Law Tribunal, Chennai (NCLT) on 1.3.2019 along with the Draft Scheme of Amalgamation. NCLT heard the application on 9.8.2019 and called for holding of the Meetings of the Unsecured Creditors and Shareholders of both the Companies on 4th and 5th October 2019. These meetings were duly held on the respective dates and the requisite approvals from unsecured creditors and shareholders for the amalgamation were obtained.

NCLT ordered for final hearing on the petition on 06.02.2020 and accorded its approval vide Order dated 21.02.2020 Both the Companies filed Form INC 28 on 26.02.2020 with Registrar of Companies, Coimbatore and the Scheme became operative from the appointed date of 1.4.2018.

In terms of the Scheme of Amalgamation, all assets and liabilities of KGFL as on the appointed date shall stand transferred to and vested with SKML. KGFL will cease to exist and as consideration equity shareholders of KGFL shall receive equity shares of SKML in the ratio of 10:1. As per the Scheme equity shares of SKML held by KGFL shall be cancelled. The name of KGFL will be changed to "KG Fabriks, Unit of Sri Kannapiran Mills Limited" for maintaining market identity. The Board of Directors of KGFL will also cease to function.

Upon merger, the Authorised Capital of the Company has been increased to ₹ 33,00,00,000 (Rupees thirty three crores only) divided in to 2,70,00,000 Equity Shares of ₹ 10 each and 6,00,000 Preference Shares of ₹100 each from the existing Authorised Capital of ₹ 9,00,00,000 (Rupees nine crores only) divided into 60,00,000 Equity Shares of ₹10 each and 3,00,000 Preference Shares of ₹100 each; Memorandum of Association and Articles of Association of the Company has been altered to that extent;

The Company shall issue and allot 135000 6% Cumulative Redeemable Preference Shares of ₹100 /- each of the Transferee Company, credited as fully paid to the existing preference share holder of Transferor Company.

Capital Reserve

Company has recognized Capital Reserve amounting to ₹1614 lakhs on account of amalgamation.

State of the Company's Affairs

Spinning Business

The yarn production for the year was 192 lakhs kgs compared to previous year of 176 lakh kgs. Cotton price was ruled between ₹ 121 to ₹ 134 per kg. Company changed its product mix in line with the changing market scenario with the increased production capacity created out of expansion, higher productivity using 100% firm private power which is lower than TNEB prices. These measures helped the Company to make profits though these were lower than earlier year due to mixed reasons. Spinning business achieved a Gross Profit of ₹ 3049 lakhs compared to ₹ 2364 lakhs for previous year.

Denim Business

Currently there are more than 42 denim mills with manufacturing capacity ranging from 10 MMPA [Million Meters per annum] to 153 MMPA with 6 other companies trying to build capacity of 140 MMPA [Source: Denim Association] Some of them are present in the entire textile value chain with spinning, weaving, processing, garmenting, retailing in the same company or through associate companies. As a result industry is operating at a capacity of 60%. Denim prices therefore got impacted due to price competition. Denim industry had been greatly affected during the last three years due to continued impact of demonetization and GST framework, rise in input costs and lower realization due to weak demand and intense competition. Fabric production was 98.11 lakh meters for the year as against 118.48 lakh meters during the previous year. Sales for the year was 90.96 lakh meters as against 119.55 lakh meters for the previous year including exports of 20 lakh meters for the year against 16.68 lakh meters for the previous year. Weaving business achieved a Gross Profit of ₹ 329 lakhs compared to ₹ 759 lakhs for previous year.

Company has been working on sustainability initiatives for the last 3 years in the fields of water and waste water treatment, zero liquid discharge and environment protection as global brands and some domestic brands have increasing preference for sustainable products. In recognition of the ardent efforts, Ministry of Water Resources, River Development and Ganga Rejuvenation, New Delhi granted "National Water Award 2018" for lowest water consumption per meter of fabric which carried a Citation and Cash Award of ₹2 lakhs in the category of "Best Industry (Medium & Small Scale).

Again in recognition of our notable initiatives on the environmental front, chemical consumption reduction, effluent water reduction Confederation of Indian Industry (CII) awarded "GREENCO GOLD Rating" and complemented the Company for having set a benchmark for other textile units to catch on.

Company also obtained Trade Marks for three products by registering the same under Clauses 24, 25 and 40 of Trade Marks Act 1999 to facilitate brand building and marketing.

With a view to penetrate the market and increase sales Company also renewed Certification from "Global Organic Textile Standard (GOTS)" for Recycled Claim Standard (RCS), Recycled Claim Standard Blended (RCSB) and OEKO-TEX Standard 100 testing for harmful substances. Company also became a member of SMETA [SEDEX Members Ethical Trade Audit] from 13.12.2018 and Better Cotton Initiative [BCI] to show case our presence in the industry with sustainable products.

It is expected that the present integration of spinning and weaving will largely help in achieving higher sales and profitability once the entire textile business improves. A number of factors affected operations during the current year viz., trade war between US and China, general economic slow down across the global economy and consequent impact on global trade.

Your Company therefore aimed at increasing export market and increased its sales to Sri Lanka, Bangladesh and Malaysia.

Industry Structure & Developments

India's textiles sector is one of the oldest industries in Indian economy dating back several centuries. Even today, textiles sector is one of the largest contributors to India's exports with approximately 15 per cent of total exports. The textiles industry is also labour intensive and is one of the largest employers.

The textile industry employs about 45 million people directly. India's overall textile exports during FY 2018-19 stood at US\$ 39 billion; 15 % of Export Earning.

The Indian textiles industry is extremely varied, with the hand-spun and hand-woven textiles sectors at one end of the spectrum, while the capital intensive sophisticated mills sector at the other end of the spectrum. The decentralised power looms/ hosiery and knitting sector form the largest component of the textiles sector. The close linkage of the textile industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in terms of textiles make the Indian textiles sector unique in comparison to the industries of other countries. The Indian textile industry has the capacity to produce a wide variety of products suitable to different market segments, both within India and across the world.

The Indian textiles industry, currently estimated at around US\$ 150 billion, is expected to reach US\$ 250 billion by 2020. The Indian Textile Industry contributes approximately 2 per cent to India's Gross Domestic Product (GDP), 10 per cent of manufacturing production and 14 per cent to overall Index of Industrial Production (IIP).

Indian exports of locally made retail and lifestyle products grew at a Compound Annual Growth Rate (CAGR) of 10 per cent from 2013 to 2018, mainly led by bedding bath and home decor products.

The Indian government has come up with a number of export promotion policies for the textiles sector. It has also allowed 100 per cent FDI in the Indian textiles sector under the automatic route.

The future for the Indian textile industry looks promising, buoyed by both strong domestic consumption as well as export demand. With consumerism and disposable income on the rise, the retail sector has experienced a rapid growth. High economic growth has resulted in higher disposable income. This has led to rise in demand for products creating a huge domestic market. The domestic market for apparel and lifestyle products, currently estimated at US\$ 85 billion, is expected to reach US\$ 160 billion by 2025.

The Indian cotton textile industry is expected to showcase a stable growth in FY 2019-20, supported by stable input prices, healthy capacity utilisation and steady domestic demand.

The production of cotton in India is estimated to increase by 9.3 per cent year-on-year to reach 37.7 million bales in FY 2018-19. The total area under cultivation of cotton in India is expected to increase by 7 per cent to 11.3 million hectares in 2018-19. India is the second largest producer of cotton accounting for 25% of the global cotton area and contributes to 18% of the global cotton production.

The demand and margin for Ring and Open end yarn was improved during the current year. Power position in Tamil Nadu was favourable during the year.

The textile industry has suggested various measures to improve the performance of textile mills in India to Government of India for stabilizing cotton prices, good infrastructure to improve the movement of goods at low cost, lower power cost and Bank interest rate.

The company is able to sell its products in view of varied product mix viz., Compact yarn, Slub yarn, Gassed mercerized yarn, polyester yarn, denim yarn and glove yarn. Exports for the year were ₹12 Crores. The Company had own depots, dealer network at various places in India to meet the end user's requirements immediately.

Opportunities

There is greater opportunity due to India's rising population further complemented by growing young population with changing tastes and fashion. Rising incomes, growth of retail sector, higher women workforce, increasing disposal income and consumerism and organized apparel segment will further usher the growth of the industry.

Your company has been carrying out regular modernization, expansion and technology up gradation schemes to increase productivity and to produce wider range of yarn and fabrics. Sustainable efforts in water conservation and reuse for weaving and processing of fabric resulted in Government of India according National Water Award 2018. Company holds several certifications for process and product quality which are expected to increase production, sales and profitability in the ensuing years.

Threats

Indian textile industry is highly dependent on availability of domestic cotton at a competitive price. Expected increase in yarn demand and apparel segments demand will help to improve sales and

There is shortage of labor and skill in the industry despite India having a favorable demographic profile. Recognizing the need for skill development, Government has promoted skill development programs through Textile Sector Skill Council (TSC) of National Skill Development Corporation (NSDC). Your Company employs people from more than 9 states who are all skilled under Pradhan Mantri Kaushal Vikas Yojana (PMKVY). Company has also set up KG Centurion Work Integrated and Advanced Skills Centre in association with Centurion University of Technology and Management for ITI/Vocational Training.

Banking regulations have become stringent due to high non performing assets and scams in banking sector. Interest rates need to be softening to promote growth of textile sector.

The widening trade tension between US and China & other countries will impact exports. Industry expects the Government to tackle the issue in the best way possible to promote domestic industry. Stiff competition from low cost countries due to duty concession continues to pose threat.

Segment wise or product wise performance

The Company is engaged in the business of spinning of yarn and weaving of fabrics and accordingly this is the only Single Reportable Segment.

Outlook

In the backdrop of general economic slowdown due to various happenings across the globe and the continued impact of demonetization and GST, tighter banking regulations due to rising level of non-performing assets, the Company expects to improve further its operational and financial performance during the current year by achieving full utilization, increased productivity, better product mix and power management.

Risk and concerns

Cotton being an agriculture product, is the key raw material used for manufacture of cotton yarn, the cultivation is dependent on monsoon. Availability of quality cotton at stable prices is crucial for the profitability. The continuing trade tension between US and China and other countries has impacted yarn exports with consequential impact in domestic markets.

Higher Bank interest rates and increased labour cost coupled with shortage of labour will be major concern for our company.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

4. We draw your attention to Note No 28 (1) to the financial statements, which states that the National Company Law Tribunal approved the Scheme of Amalgamation between the company and KG Fabriks Limited (the Scheme) on 21st February, 2020 and the same was subsequently filed with the relevant regulatory authorities on 26th February, 2020 and has become effective from that date. Our opinion is not modified in respect of this matter.

Key Audit Matters

- 5. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
 - Reporting of key audit matters as per SA 701, Key Audit Matters are not applicable to the Company as it is an unlisted company.

Other Information

- 6. The Company's board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report but does not include the financial statements and our auditor's report thereon.
 - Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
 - In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and those charged with governance for the financial statements

- 7. The Company's Board of Directors are responsible for the matters stated in Section 134 (5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.
- 8. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

9. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

- 10. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances. Under Section 143(3)(i) of the Companies Act, 2013, we
 are also responsible for expressing our opinion on whether the company has adequate internal
 financial controls system in place and the operating effectiveness of such controls
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the financial statements, including the
 disclosures, and whether the financial statements represent the underlying transactions and events
 in a manner that achieves fair presentation.
- 11. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- 12. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
- 13. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

14. The financial statements include financial information of the amalgamating company (M/s K G Fabriks Limited) whose financial information reflect total assets of ₹ 14115.23 Lakhs and net assets of ₹ 3774.31 Lakhs as at 31st March 2019 and total income of ₹ 13473.61 Lakhs of the amalgamating company for the said period ending 31st March 2019. Our opinion is not modified in respect of the above matters.

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF SRI KANNAPIRAN MILLS LIMITED

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

 We have audited the internal financial controls over financial reporting of SRI KANNAPIRAN MILLS LIMITED ("the Company") as of March 31, 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

- 3. Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
- 4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The Procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
- 5. We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
